why choose dc+b roman blinds

why choose dc+b

- + Established in 1967 - A company you can trust
- + Family owned + operated Australian business
- + Affordable + value for money
- + We do it all with no hidden costs - Our experienced team measure, quote, manufacture + install
- + Free measure + quote
- + The largest network of stores in Australia making it more convenient for you to visit our team at your local dc+b store
- + Australia's largest range of samples + full sized displays so you can be confident you're making the right decision

- + Peace of mind with our three year warranty
- + Exceptional quality which provides long term value + increases your property's appreciation
- + Market leading materials, manufacturing processes, advanced technology + quality control systems
- + Authentic 100% custom made handcrafting without any pre-fabrication or shortcuts
- + Australian Business Quality Award Winner
- + Best of Houzz Service Award Winner

Combining the functionality of Blinds with the decorative impact of soft furnishings, our Roman Blinds have luxurious pleated folds which are raised fold by fold, creating a soft layered look. When lifted, you can maximise your views and natural light. When drawn closed, they give you complete privacy.

At dc+b, our Blinds are proudly made in Australia, ensuring superior quality, greater variety, and exceptional service. Due to manufacturing them ourselves, we can offer you more while charging you less. With no hidden costs, you get factory-direct prices and outstanding value for money.

- + Functional + decorative
- + Clear views when fully open
- + Excellent light control
- + Total privacy when closed

- + Made for you - Australian made, for the Australian market
- + Flexibility - Choose your style, fabric, transparency, colour, finish, control type + accessories from Australia's largest range
- + No short cuts - 100% custom designed + manufactured
- + Consistent quality - Every Blind goes through stringent quality control testing
- + Market leading - The highest quality fabrics + componentry made to last in Australia's harsh climate

compare the difference

The difference in our Blinds is in the detail and that's important given the major investment entailed in choosing your window coverings. We use a top of the line technically superior hardware system from Rollease Acmeda. Perfected by years of extensive research and development, the system has been designed for precision operation. Our Blinds are also designed with extra componentry as standard, at no extra cost, to ensure the most durable and long lasting Roman Blind available.

our roman blind system

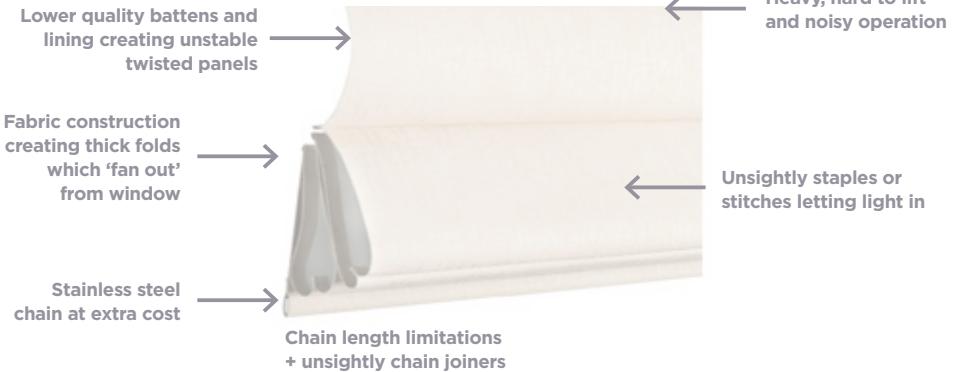

- ⊕ Peace of mind with our child + pet safe control options
- ⊕ Slimline profile creating reduced light gaps
- ⊕ Slim spool + cord for improved appearance
- ⊕ Smooth + quiet operation
- ⊕ Easy to lift geared lifting system for reduced user effort
- ⊕ Increased load capacity + ability to cater to large Blind widths

our blinds

our customisation

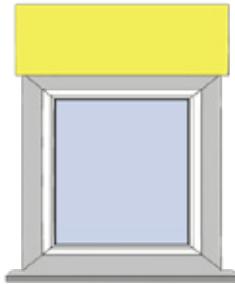

Choose your install, style, fabric, finish, control type and accessories to create your own Roman Blinds suited exactly to your needs and all aussie-made with home grown quality.

STEP

1

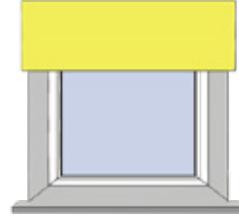

select install options

ARC FIT (RAISED)

- Blind installed up above window frame (Min. 100mm)
- When folded up the Blind does not cover glass so allows you to maximise your views + the natural light entering into your home
- Installing up above the window makes Blind suitable for doors
- Where possible Blind is taken past arc width (approx. 50mm) on both sides for improved light control
- Recommended install option for motorised Roman Blinds so that the cables are concealed from view when looking into the window from outside

ARC FIT

- Blind installed on window frame
- When folded up the Blind will still cover over a significant part of the glass so consider loss of light + views (With an average arc width of 65mm, Blind will cover approx. 180-240mm of glass)
- Consider head height with doorways
- Where possible Blind is taken past arc width (approx. 50mm) on both sides for improved light control

soft roman blinds

STEP 2
select style

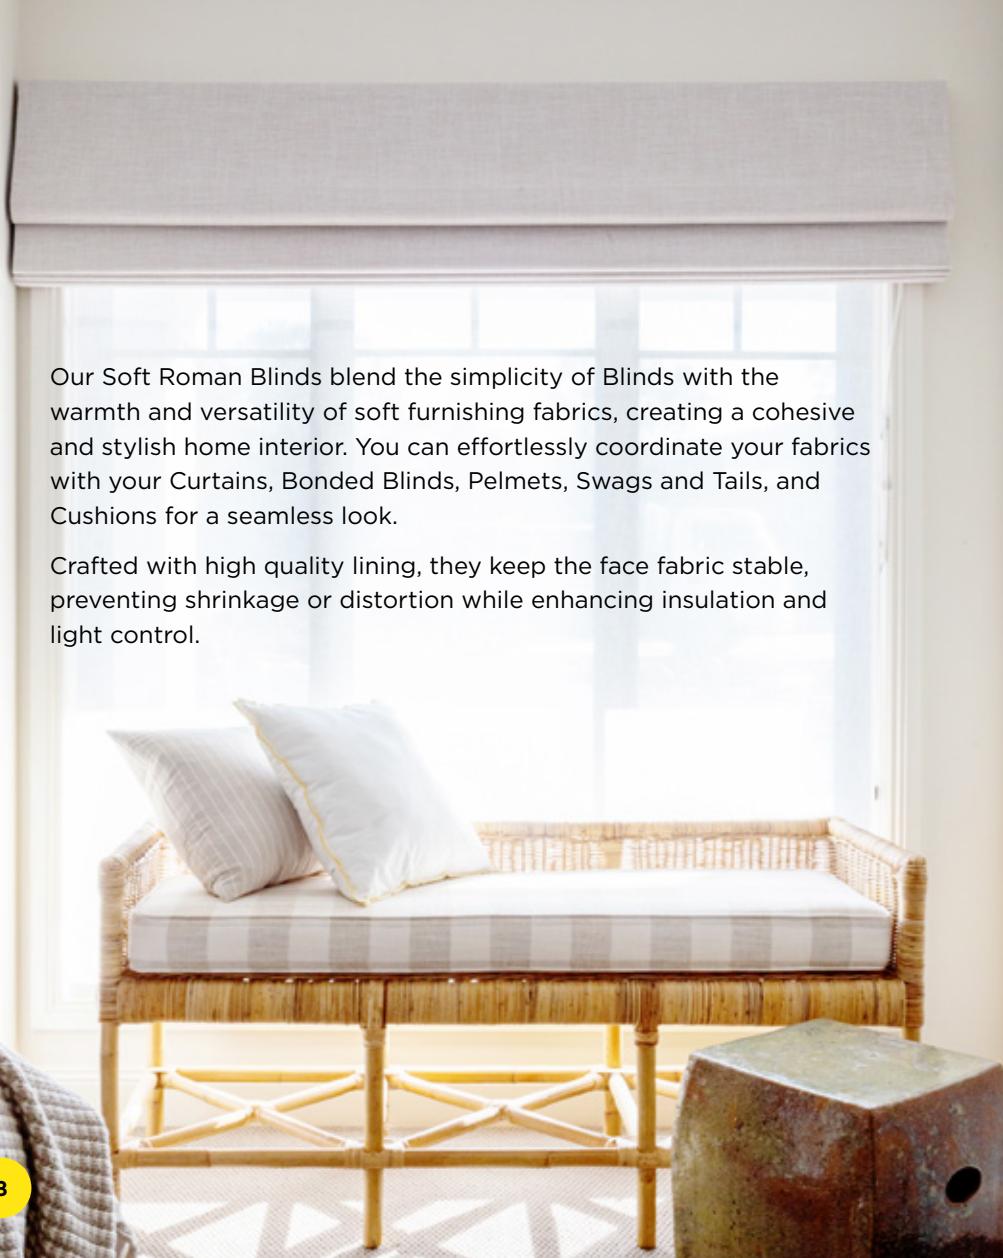

hard roman blinds

RECESS FIT

- Recess fit is an available option but is not recommended
- There is difficulty in accessing the controls to lift + lower the Blind as they are located behind the fabric
- When folded up the Blind will still cover over a significant part of the glass causing loss of light + views
- If installed without another blockout product layered on top (such as curtains) there will be light gaps between the Blind + window frame

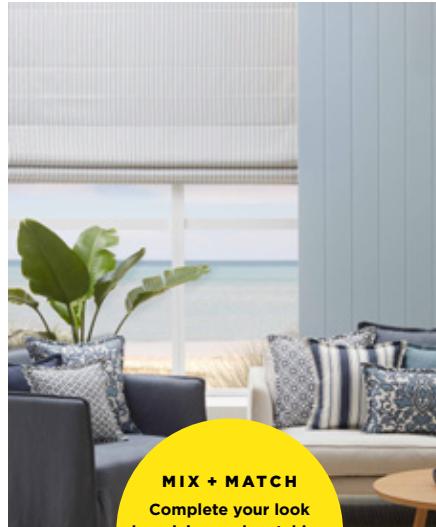

soft roman blinds

Our Soft Roman Blinds blend the simplicity of Blinds with the warmth and versatility of soft furnishing fabrics, creating a cohesive and stylish home interior. You can effortlessly coordinate your fabrics with your Curtains, Bonded Blinds, Pelmets, Swags and Tails, and Cushions for a seamless look.

Crafted with high quality lining, they keep the face fabric stable, preventing shrinkage or distortion while enhancing insulation and light control.

MIX + MATCH
Complete your look
by mixing and matching
fabrics with your
Curtains and
Cushions.

- ✚ Simplicity of Blinds with added warmth + softness
- ✚ Select a soft furnishings drapery fabric from our extensive range
- ✚ Blockout of light + room darkening
- ✚ Total privacy when drawn
- ✚ UV Protection
- ✚ Adds insulation + saves you money on your energy bills
- ✚ Hundreds of print, stripe, floral + jacquard fabrics to choose from
- ✚ Expand your decorating options - coordinate with your Curtains + Cushions

our exclusive fibreglass battens + clips

- ✚ Australian Designed + exclusive to dc+b
- ✚ Enables Blinds to be made to wider widths with no twisting, curling or cupping
- ✚ Lightweight - making it easier to lift + lower your Blind
- ✚ UV treated to withstand harsh Australian sun
- ✚ Innovative construction creating a smooth finish

our quality lining

- ⊕ We add an additional layer of lining creating double the thermal insulation
- ⊕ Softened fabric construction creating softer neater folds
- ⊕ Increased energy efficiency
- ⊕ Superior long lasting quality
- ⊕ Increased light control + privacy
- ⊕ Increased sound insulation
- ⊕ Added UV protection for interiors
- ⊕ Keeps face fabric stable
- ⊕ Ensures no fabric shrinkage

mix + match

- ⊕ Use the same fabric in your soft Roman Blinds in our Bonded Roller Blinds + Curtains across other windows + doors
- ⊕ Keep consistency throughout your home for a well designed finish
- ⊕ Mix fabrics to create a decorative look

hard roman blinds

Our Hard Roman Blinds offer crisp, clean lines that compliment traditional decor while also softening the edges of modern interiors.

Proudly Australian Made, they are crafted with the latest automation technology and precision cutting machinery for perfectly aligned, evenly spaced panels. Choose from a variety of styles, all available in our extensive range of Blind fabrics, including blockout, sunscreen, and translucent options.

12

- ⊕ Crisp lines + a seamless tailored appearance
- ⊕ Select a Blind fabric from our extensive range of fabrics
- ⊕ Blockout of light + room darkening
- ⊕ Total privacy when drawn
- ⊕ UV Protection
- ⊕ Adds insulation + saves you money on your energy bills
- ⊕ Select a fabric suitable in a Roller, Vertical or Panel Blind so you can match your fabrics across windows + rooms

THE CHOICE
IS YOURS
Available in two
styles and a wide
range of fabrics
to choose from

select hard roman blind style

BARBADOS

Powder coated aluminium battens secured to the back of the blind create a clean + structured look. Choose from white, off-white or black for the back batten colour. The 'stack height' of the panels when completely raised is approx. 240-270mm.

LE MERIDIAN

Powder coated aluminium battens are secured to the back of the Blind with wider panel spacing, making it ideal for extra tall windows. Choose from white, off-white or black for the back batten colour. Given the wider panels, the 'stack height' of the panels when completely raised is wider at approx. 340-370mm.

our Australian Made quality

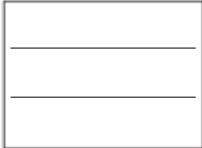

- ⊕ Innovative design where battens are positioned without the need for unsightly staples or stitches, resulting in a superior quality finish
- ⊕ In our chain control, the self-guiding spool greatly reduces the risk of tangled cords + ensures Blinds can be raised or lowered without skewing

select finish

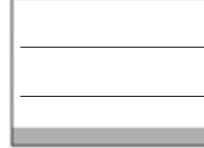

Complete the look of your Roman Blinds with the perfect finishing touch. For a sleek, modern style, choose a plain finish. If you prefer something more decorative, add a soft scarf finish or a trim like braid or fringe. For a timeless, classic look, the Georgian scallop finish is a beautiful choice.

STANDARD 100

select control type

cord operated

- ⊕ Basic lifting system
- ⊕ Quick to lift
- ⊕ Ideal for small Blinds
- ⊕ Cleat to tie cord neatly in place
- ⊕ Cords are finished with our stylish acorns - Choice of white, brass or chrome

HEAVY DUTY CORD LOCK

- ⊕ Includes heavy duty cord lock design which helps to stop Blind exactly where you like
- ⊕ Affordable + easy to use

Choose a translucent fabric for living areas and you'll see how our Roman Blinds can filter natural light for a relaxing setting while still retaining daytime privacy.

Sleek, neat and clean finish

Our Roman Blinds are always operated from behind the fabric to ensure controls are hidden from view for a clean, streamlined and neater finish.

chain operated

- ⊕ Child + pet safe with specially designed chain fixing devices
- ⊕ Cutting-edge patent design with technically superior hardware
- ⊕ Suitable for small + large Blinds
- ⊕ Increased load capacity makes it easy to lift large Blinds + keeps Blinds level
- ⊕ Specially designed spool to reduce drag when lifting for a smooth operation
- ⊕ Durable stainless steel chains at the same price as plastic, no extra charge, to ensure no rust over time
- ⊕ Slower lifting system compared to cord operated or motorised

motorised

Designed for modern living, our Automate range with ARC technology lets you control all of your indoor and outdoor window covering motors with a single device.

The Pulse PRO lets you control your window coverings through the 'dc+b control' app on iOS or Android or via voice commands. With our free app, you can customise your Blinds' daily routines by organising them by room, grouping them into scenes, and automating them with timers.

For voice control, connect the Pulse PRO to devices like Apple HomeKit and Siri, Amazon Alexa, Google Assistant, IFTTT, or SmartThings to manage your smart window coverings with simple commands.

Our remotes are the foundation of the motorisation system, featuring tactile push-button controls, 15 or 30 channels, group settings, and slimline wall mounts. Remote designs vary based on the selected motor.

BATTERY-OPERATED WIRE-FREE, RECHARGEABLE MOTORS

Cutting-edge battery technology

Our battery-powered Automate CL 0.8 motors are a perfect option for existing households wishing to upgrade to motorised window coverings.

A wall charger can be used to power the Blinds continuously through a powerpoint, or it can be used to re-charge the battery pack which then powers the Blinds.

We recommend to install motorised Roman Blinds raised above the window architrave so that the motorised componentry is concealed from view when looking into the window from outside.

WIRED MOTORS, HARDWIRING ELECTRICITY

Market leading design

For window coverings to suit medium to large windows, as well as large commercial projects, our wired motors are the ideal hard-wired choice. These motors get connected to power, so with a permanent power supply, there is no need to re-charge. Molex cables are supplied for your preferred electrician to install prior to our installation.

Our building management system motors are also available, supplied with cables to be integrated and controlled via your chosen building management system.

Connected to power, no need to re-charge

select accessories

Pelmets in drapery fabrics

- Choose from our soft furnishing/ drapery fabric range
- Choose from our range of shapes
- Coordinate your pelmets with our Curtains + Cushions
- Choose from hundreds of print, stripe + floral fabrics + reflect your personal style
